

Notice

We would like to use this opportunity to thank all those involved in creating the sixth volume of *Biolinguistics*. Our special gratitude goes to the reviewers that have served us throughout 2012, who are listed below (colleagues who reviewed more than one submission are suffixed by an asterisk). For everything else, we thank our supporters as well as all the members of the *Biolinguistics* Advisory Board, the *Biolinguistics* Editorial Board, and the *Biolinguistics* Task Team that are not specifically mentioned by name for active participation and feedback. We do, however, want to emphasize the excellent editorial support that Evelina Leivada provided, which made the final proofing so much easier.
